1:00 pm – 5:00 pm

November 16, 2004

Phoenix

Arizona State Fairgrounds

AGFD Wildlife Building

1826 West McDowell (19th

Ave. and McDowell)

Phoenix, Arizona²

1:00 pm to 5:00 pm

****Please contact Scott Richardson, USFWS (520-670-6144 x 242 or scott_richardson@fws.gov), if you plan on attending or have any questions.**

This training seminar is intended for anyone who will be conducting pygmy-owl surveys. We will present the basic biology of the pygmy-owl, habitat use, an update of current research, and provide an overview of the current protocol and landowner guidance. Additionally, an update on the current status (legal and biological) will be given. There have been no changes to the survey protocol or data submission procedures. If you have attended a previous pygmy-owl surveyor training class, it is not necessary to attend this year's training.

¹ The Region V office is located across the street from Pima Community College West Campus between Speedway and St. Marys/Anklam on Greasewood Rd.

² Take the 19th Ave. exit off I-10 or the McDowell exit off I-17.
